### Raise Your Ranking

This tool provides an estimated per capita amount and rank based on a theoretical legislative appropriation amount for a state. These rankings are calculated using fiscal year 2022 data. (Note that the ranking estimates will reflect potential changes for your own state's appropriation, but they cannot account for potential changes to appropriations in other states.)

#### Complete all three steps below to create a custom estimate for a state.

#### 1. Select a state.

Connecticut

## 2. Choose to exclude or include line items.

Appropriation excluding line itemsAppropriation including line items

# Connecticut: FY2022 Appropriation Amounts

Excluding line items	\$1,498,298
Including line items	\$34,288,942

## Connecticut: Per Capita Ranking Milestones

This table shows the appropriation needed to reach various per capita ranking milestones.

Per Capita Rank 1	Per Capita Amount \$7.34	Appropriation Needed \$26,478,195
5	\$3.87	\$13,942,589
10	\$2.19	\$7,913,954
20	\$1.18	\$4,255,206
25	\$0.80	\$2.887.472

#### 3. Enter an appropriation amount and

**press enter.** The chart to the left will automatically update and show the estimated per capita amount and rank for Connecticut. Connecticut's FY2022 appropriation information can be found above.

34,288,942
